

Student Use of Digital Devices and Online Services Procedure

Created Term 3 2020

Review Term 3 2021

Purpose

This procedure guides student use of digital devices and online services at our school.

Our school acknowledges the educational value of digital devices and online services in supporting and enhancing educational outcomes and student wellbeing. We also recognise they may cause harm if used inappropriately and that we need to support our students to use them in respectful, responsible and safe ways.

Scope

This procedure provides a consistent framework for the respectful, responsible and safe use of digital devices and online services by students in our school. It sets out the shared responsibilities of school staff, students and parents and carers. It also provides a framework to manage potential risks to student safety and wellbeing.

This procedure covers student use of digital devices and online services in school-related settings, including on school grounds, at school-related activities and outside of school where there is a clear and close connection between the school and the conduct of students. This procedure covers the use of school-provided and personal digital devices and all online services.

Our School's Approach

Wyrallah Road Public School supports the use of digital devices and online services which promote student learning. The use of digital devices and online services is restricted to that which aligns with curriculum delivery as determined by the classroom teacher and applies in a range of relevant educational settings and contexts including: before and after school care; during class, recess and lunch; on school grounds or in designated spaces; on excursions and other school events such as camps; on other educational sites; during exams.

The school provides clear guidance to students on the safe and appropriate use of digital devices and online services, this may extend to include engaging the services of the Police Liaison Officer to provide specific targeted support for senior students.

Digital devices and online services may cause harm if used inappropriately, such as to bully or intimidate others or gain access to and share inappropriate content. The department and the school do what they reasonably can to provide safe and secure access to school resources, equipment and infrastructure, including internet connectivity, for students at school. This procedure should be read in conjunction with other relevant departmental policies, procedures and guidelines.

Students should hand all personal digital devices, including mobile phones, to their class teacher at the start of the day. These devices can be collected from the class teacher at the end of the day. Students should not use their personal devices whilst on the school grounds or when visiting an alternative educational setting as a member of the school group (eg. school camps, sports venues) unless specifically approved by the principal or class teacher for an educational purpose.

Students may be allowed the use of digital devices in exceptional circumstances where, with permission from the principal, a student requires a digital device for medical reasons or for reasonable adjustments made as part of a student's individual education plan.

Exemptions

Exemptions to any part of this procedure may apply for some students in some circumstances. Parents and carers can request an exemption and these will be considered on a case-by-case basis and granted when required by law or at the principal's discretion.

Consequences for inappropriate use

Families will be contacted in cases where there is a clear breach of this school procedure. Permission to carry a personal device on to the school grounds may be withdrawn in cases where students continue to demonstrate inappropriate use of devices or online services at school, or at school related events (including off-site educational activities).

The school will follow its Student Wellbeing Procedure when considering any possible consequences for inappropriate use of digital devices and online services.

Contact between students and parents and carers during the school day

Should a student need to make a call during the school day, they must:

- Seek permission from the principal or their class teacher to approach the administration office and ask for permission to use the school's phone.

During school hours, parents and carers are expected to only contact their children via the school office.

Responsibilities and obligations

For students

- Be respectful, responsible and safe users of digital devices and online services, and support their peers to be the same.
- Respect and follow school rules and procedures and the decisions made by staff, knowing that other schools may have different arrangements.
- Communicate respectfully and collaboratively with peers, school staff and the school community and behave in the ways described in Appendix 2: What is respectful, responsible and safe student behaviour?

For parents and carers

- Recognise the role they play in educating their children and modelling the behaviours that underpin the respectful, responsible and safe use of digital devices and online services.
- Support implementation of the school procedure, including its approach to resolving issues.
- Take responsibility for their child's use of digital devices and online services at home such as use of online services with age and content restrictions.
- Communicate with school staff and the school community respectfully and collaboratively as outlined in the [2018 School Community Charter](#).
- Switch off or put their digital devices on silent when at official school functions, during meetings and when assisting in the classroom.
- Provide digital devices that meet school specifications where a school is participating in a bring your own device program and complete any related paperwork.

For the principal and teachers

- Deliver learning experiences that encourage respectful, responsible and safe use of digital devices and online services. This includes:
 - Establishing agreed classroom expectations for using digital devices and online services, in line with this procedure and departmental policy.
 - Identifying strategies to ensure that all students are able to engage in classroom activities including strategies to accommodate students without a digital device.

- Reading and abiding by the Terms of Service for any online services they use in teaching, including those limiting use by age.
- Educating students about online privacy, intellectual property, copyright, digital literacy and other online safety related issues.
- Model appropriate use of digital devices and online services in line with departmental policy.
- Respond to and report any breaches and incidents of inappropriate use of digital devices and online services as required by school procedures, departmental policy and any statutory and regulatory requirements. This includes:
 - Reporting the creation, possession or distribution of indecent or offensive material to the Incident Support and Report hotline as required by the Incident Notification and Response Policy and Procedures and consider any mandatory reporting requirements.
 - Working with the department and the Office of the eSafety Commissioner (if necessary) to resolve cases of serious online bullying and image-based abuse.
 - Following the school's behaviour management plan when responding to any incident of inappropriate student behaviour relating to the use of digital devices or online services.
- If feasible and particularly as issues emerge, support parents and carers to understand strategies that promote their children's respectful, responsible and safe use of digital devices and online services.
- Participate in professional development related to appropriate use of digital devices and online services.

For non-teaching staff, volunteers and contractors

- Be aware of the department's policy, this procedure and act in line with the conduct described.
- Report any inappropriate use of digital devices and online services to the principal, school executive or school staff they are working with.

Communicating this procedure to the school community

Students will be informed about this procedure by their class teacher and Technology Teacher through the delivery of explicit ICT lessons and class-based PBL teaching and learning programs.

Parents and carers will be advised via the school newsletter. This procedure can be accessed electronically via the school's website and in hardcopy at the school's administration office.

Complaints

If a student, parent or carer has a complaint under this procedure, they should first follow our school's complaint process. If the issue cannot be resolved, please refer to the department's [guide for students/ parents/ carers about making a complaint about our schools](#).

Review

The principal or delegated staff will review this procedure annually.

Appendix 1: Key terms

Bring your own device is an optional program where parents and carers can provide personal digital devices for use at school. Any decision to adopt a bring your own device program is made by the principal in consultation with a school community. All digital devices used in schools are covered by the *Student Use of Digital Devices and Online Services* policy. Schools retain discretion to determine the specifications of personal devices to be used at school.

Digital citizenship refers to the skills and knowledge a person needs to effectively use digital technologies in a positive way so they can participate in society, communicate with others, and create and consume digital content.

Digital devices are electronic devices that can receive, store, process and share digital information and connect to applications (apps), websites and other online services. They include desktop computers, laptops, tablets, smartwatches, smartphones and other devices.

Digital literacy is the set of social, emotional and technological skills and competencies that people need to understand to use digital devices and online services, and to expand their opportunities for education, employment and social participation, including entertainment.

Educational purpose is any use approved by school staff that supports student learning, wellbeing and educational outcomes.

General capabilities are the broad collection of knowledge, skills, behaviours and dispositions described within the Australian curriculum and NSW syllabus.

Image-based abuse occurs when intimate, nude or sexual images are distributed, or threatened to be distributed, without the consent of those pictured. This includes real, altered and drawn pictures and videos. This is a crime in NSW.

Online bullying involves using technology such as the internet or mobile devices to bully someone. Bullying behaviour has three key features. It involves the intentional misuse of power in a relationship. It is ongoing and repeated, and it involves behaviours that can cause harm. Bullying behaviour can also involve intimidation, victimisation and harassment, including that based on sex, race, religion, disability, or sexual orientation.

Online safety is the respectful, responsible and safe use of digital media, devices, other technology and online services.

Online services are any software, website or application that can gather, process or communicate information. This includes digital classrooms, chat and messaging, online games, virtual reality, social media and other online spaces.

Reasonable adjustment is a measure or action taken to assist a student with disability to participate in education and training on the same basis as other students.

School-related settings include school grounds, school-related activities and outside of school where there is a clear and close connection between the school and the conduct of students. This connection may exist in situations where: there is discussion about school taking place outside of school hours; a student is wearing their school uniform but is not on school premises; a relationship between parties commenced at school; students are online in digital classrooms; and where online contact has flow on consequences at school and duty of care requires the school to respond once an incident is reported.

School staff refers to school personnel who have some level of responsibility for implementing policy and the school digital devices and online service procedure. This includes principals, senior staff, teachers, non-teaching staff, school administrative staff, volunteers and contracted staff engaged by schools.

Appendix 2: What is respectful, responsible and safe student behaviour?

Be SAFE

- Protect your personal information, including your name, address, school, email address, telephone number, pictures of you and other personal details.
- Only use your own usernames and passwords, and never share them with others.
- Ask a teacher or other responsible adult for help if anyone online asks for your personal information, wants to meet you or offers you money or gifts.
- Let a teacher or other responsible adult know immediately if you find anything online that is suspicious, harmful, inappropriate or makes you uncomfortable.
- Never hack, disable or bypass any hardware or software security, including any virus protection, spam and filter settings.

Be RESPONSIBLE

- Follow all school rules and instructions from school staff, including when using digital devices and online services.
- Take care with the digital devices you use.
 - Understand that you and your parents and carers are responsible for any repairs or IT support your personal devices might bring to school.
 - Make sure the devices you bring to school have the latest software installed.
 - Take care with the school-owned devices you share with others, so that other people can use them after you.
- Use online services in responsible and age-appropriate ways.
 - Only use online services in the ways agreed to with your teacher.
 - Only access appropriate content and websites, including when using the school's filtered network and personal, unfiltered networks.
 - Do not use online services to buy or sell things online or to do anything that breaks the law.
- Understand that everything done on the school's network is monitored and can be used in investigations, court proceedings or for other legal reasons.

Be RESPECTFUL

- Respect and protect the privacy, safety and wellbeing of others.
- Do not share anyone else's personal information.
- Get permission before you take a photo or video of someone, including from the person and from a teacher.
- Do not harass or bully other students, school staff or anyone, this includes cyberbullying using a digital device or online service.
- Do not send or share messages or content that could cause harm, including things that might be:
 - inappropriate, offensive or abusive;
 - upsetting or embarrassing to another person or group;
 - considered bullying;
 - private or confidential; and/or
 - a virus or other harmful software.
