Term 4, 2019

Welcome back to the last term of the year! It was wonderful to see the students return looking happy, refreshed and excited to see their friends. We are ready for the challenges of many new learning experiences in Term 4!

<p>Curriculum Overview Term 4</p> <p>Technology...</p> 	<p>English: This term, students will be learning about persuasive texts. This will include writing and speaking persuasively. We will look at forming and justifying a point of view and articulating those ideas to a specific audience. We continue with our new Soundwaves Program which is proving to be a highly effective whole school approach to teaching spelling.</p> <p>Maths: We will continue to cover syllabus content strands, honing and expanding the skills that we have been developing throughout the year. The students will cover a range of topics including time, money, measurement, 2 and 3-dimensional shapes, data and chance, addition, subtraction, multiplication and division operations with numbers. They will continue to discover ways to Work Mathematically and we will continue to use Mathletics in the classroom as one of many ways to present content to students. I encourage the use of Mathletics at home to reinforce students' knowledge and skills.</p> <p>Integrated Unit: 'Technologies Through Time.' As the name suggests, this term we will be looking at some common technologies that we encounter every day and investigate their development over time. Students will also discuss communication as part of this investigation and examine its progression since ancient times including some of the traditional methods and modes of communication employed by indigenous Australians.</p> <p>Personal Development and Health (PDH): This term, as part of our PDH unit on Child Protection, Stage 1 will be taking part in the Y-Pep Child Protection Education Program. As a result of this program, students will have:</p> <ul style="list-style-type: none"> ✓ An increased awareness of safe and respectful relationships ✓ Increased skills in recognising and responding to unsafe situations ✓ An increased understanding of rights and responsibilities in relationships

We will also be focusing upon the fundamental movements for these activities which includes volleyball, frisbee and golf for Year 1 and volleyball, cricket, frisbee and austag for Year 2.</p> <p>Homework: Weekly homework is to be returned Fridays.</p> <p>Home Reading: The Home Reading Program continues to be well supported by students and parents, which is fantastic to see because it has such a positive influence on student learning. It is important to remember that the home readers are at a lower level than they are reading at school so that the students can develop fluency and confidence. We encourage all students to continue to consistently borrow from the school library as well as borrow home readers from the classroom. Library books can still be registered in your child's Home Reading log by simply indicating the pages or chapters read on that night. Thank you for your continued support of this important program.</p> <p>Super Speakers: Preparation for this forms part of our homework. An outline of this term's topics and your child's <i>Super Speakers</i> day is attached.</p> <p>Whole school assembly: Friday of each even week, 2:10 – 2:50pm, in the school hall. Everyone is welcome!</p>
